New Projects and Recruitment as a result of North East Business Awards 08

TAS Engineering Consultants Ltd, head office based in Stockton on Tees, has received three new client projects worth £150,000 as a direct result of being finalists for their Electrical Arc Flash Studies in the North East Business Awards sub regional finals, leading to the creation of five additional engineering and commercial vacancies.

The three new projects came from current clients, based within the North East, after TAS's Electrical Safety Services were profiled in the Tees Valley finals. The new roles are for Electrical, Instrumentation, Automation & Control (EIA&C) Engineers, plus a part time marketing assistant.

'I am over the moon with increase in awareness of our services and new projects from the business awards' said John Maplesden, TAS's Managing Director. 'The new appointments will strengthen our engineering and senior management team, helping TAS Engineering to grow and satisfy the massive current regional and national demand for our services'

The new projects are for risk assessments in Electrical Arc Flash, Site Systems Safety and Electrical Detail Design.

---NOTES FOR EDITOR---

About TAS

TAS Engineering Consultants were established in 1973. Originally called Teesside Automation Services Ltd. The Company is split into two divisions:

1. Traditional Engineering—Electrical, Instrumentation, Automation and Control.
2. Specialist Engineering—Legislative and Safety Compliance services.

TAS employ 25 staff in total on a full or part time basis, flexible in working either from home, site or office based. TAS's head office is located in Stockton on Tees, with two satellite offices located in Gloucester and Stevenage. TAS have adopted a flexible attitude for Engineers, as there has been a dramatic increase in demand for experienced & qualified engineers.
